```java
1
2  import org.apache.commons.lang.StringUtils;
3  import org.apache.hadoop.hive.ql.exec.UDF;
4
5  public class StringCombiner extends UDF{
6      public String joinString (String seperator, String[] string) {
7          if (seperator == null || string == null) {
8              return null;
9          }
10         return StringUtils.join(string, seperator);
11     }
12 }
```
